Tips for providing Required Evidence to IAAME

- If possible, provide IAAME access to the electronic management system/drop box/cloud-based system prior to the start of the Desk Review to ensure there are no technical difficulties.
- ASPs are responsible for ensuring the electronic management system/drop box/cloud-based system utilized has sufficient storage. If the system utilized by the ASP runs out of storage, IAAME will work with the ASP to upload evidence to the *Documents* tab of the portal.
- To assist IAAME in ensuring the most accurate review of evidence provided, it is preferable that evidence provided is organized by case record name and clearly labeled by standard.
- If ASPs submit the entire adoption record, as opposed to just the evidence requested in this Desk Review Evidence document, do not provide the entire record as one scanned document. In order for IAAME to easily locate evidence, it is preferable for the record to be scanned in sections, with each section clearly labeled.
- IAAME has found it helpful when ASPs provide a “table of contents” or “key” to assist IAAME with locating evidence provided. ASPs have provided an individualized document per adoption record; others provided a more generalized document. Such documents have included information such as page numbers if evidence is provided in scanned sections, reason(s) why a certain piece of evidence is not provided for a case record (i.e., case has not progressed to this stage), reason(s) why evidence in one case record may look different (i.e., updated document was implemented), and any other information the ASP thought would be helpful to IAAME during the Review. Utilizing these steps assists IAAME in clearly locating and reviewing the evidence provided.

Desk Review Evidence

- IAAME addressed providing evidence to IAAME as part of the March 17, 2020 *IAAME Messaging COVID-19 Pandemic Crisis* communication. ASPs may wish to refer to the *Required Evidence* section for further guidance. The communication may be located on the IAAME website, here: <https://www.iaame.net/wp-content/uploads/2021/02/IAAME-COVID-19-Response-3.17.2020.pdf>
