IAAME Portal Manual for Adoption Service Providers

Home page

The Portal Homepage will appear upon login by the ASP. The Portal Homepage includes a navigation bar at the top.

Feedback

In the upper right-hand corner of the Portal is the Feedback link. Use this link to submit requests to IAAME for Portal-related issues such as:

1. **Portal Technical Issue** – An error has occurred within the system that is preventing the completion of a function in the portal.
2. **Enhancement Request** – Suggestions for enhancement of process or functionality within the Portal system.
3. **Training and Education** – Technical support questions and requests for guidance related to use of the Portal.
4. **Client Application Modification** – Includes requests to modify client applications or adoptions and requests to withdraw client applications. **When referencing a client application or additional adoption, utilize the assigned AppID and AdoptID.*
5. **Other Issue** – All other Portal related questions and issues that do not fit one of the above categories **For further details and instructions regarding withdrawing client applications see page 9-10 below.*

Please do not include client names in Feedback requests unless there is no associated ID number for reference. An IAAME staff member will contact ASPs within 2 business days of the submitted request.

The Portal Home page includes the following subsections:

- A link to this Portal Manual.
- Important Dates: These include the ASP's Accreditation/Approval Expiration, when the Accreditation/Approval Agreement and Application Part B (self-study) are due, and the date of scheduled On-Site Review (as applicable).
- IAAME Staff assigned to the ASP with email links.
- Client Application Transfer Requests: Client Applications with a status of "Pending" appear on the transferring and receiving ASP's Homepage until formally accepted in the Portal by the receiving ASP. Transferred Client Applications will appear on both the transferring and receiving ASPs' home page for 30 days after a Client Application transfer has been completed in the Portal.

IAAME Portal Manual for Adoption Service Providers

- Activities processed by IAAME within the last 30 days: This includes activities which IAAME has processed for the ASP within the last 30 days.
- Activities Returned From IAAME: This includes any activities which IAAME has returned to the ASP for required action by the ASP.
- News: This section contains important news and updates posted by IAAME.
- Feedback Request Status: This section provides information for the ASP related to submitted feedback requests, including the date of submission, who within IAAME it's been assigned to and the date of completion.

ASP Info

The ASP Info tab contains the general ASP information known to IAAME, as well as

1. Current and historical Countries in which the ASP provides/has provided intercountry adoption services as a primary provider, including whether the ASP is currently accepting applications for adoption within each country or not (will be populated within the ASP Directory on the IAAME website)
2. Other Countries in which the ASP has indicated willingness to consider acting as a primary provider (as applicable, and will be populated within the ASP Directory on the IAAME website)
3. Locations where the ASP provides intercountry adoption services, and
4. The ASP's identified Contacts.

ASP Countries

Within the ASP Countries listing in the Portal, the ASP may change the ASP Directory status from "Accepting Applications" to "Not Currently Accepting New Clients".

Click the hyperlinked text in the ASP Directory column to change the status of the country. Once indicated, this language will appear within the ASP Directory on IAAME's website, alerting those seeking primary provider services that you are not currently accepting new applicants in the selected country. Similarly, click the hyperlinked text again to remove this indicator from the ASP Directory for the selected country.

**This feature may be useful for ASPs that serve as a primary provider in a foreign country for a single adoption, and do not wish to continue providing adoption services in that country once the adoption is finalized, or if an ASP is currently not accepting new clients in a particular active country.*

Other Countries

IAAME Portal Manual for Adoption Service Providers

ASPs can indicate countries from the list in which it is willing to consider acting as a primary provider, where it does not currently provide adoption services. Once the country is selected in the Portal, the Directory will update to include the ASP in search results when no ASPs are listed as actively providing adoption services in that particular country.

To utilize this feature, take the following steps:

1. Click on a country or countries you wish to choose.
2. Click the single arrow pointing right feature to move the country to the box to the right.
3. Once you have selected and moved each applicable country, click “Save Selected Other Countries”.
4. If you wish to remove a country from this list, click on the country in the box on the right and click the single arrow pointing left. Then click “Save Selected Other Countries”.

Adoption Service Provider Contacts in the Portal

The Contacts section includes active and inactive primary and secondary contacts identified by the ASP, including those who will receive invoices from IAAME, those designated by the ASP with limited Portal access, and those with full Portal access.

There is no limit to the number of Contacts entered by an ASP, but the ASP may only have three enabled Portal Accounts. The Portal Account column will indicate if an ASP has three enabled Portal Accounts. If the ASP creates a new Contact (see process below) that requires Portal access, the ASP must disable an existing Portal User to enable the new Contact’s Portal Account.

An ASP may only have a maximum of two Contacts identified to receive invoices from IAAME. If the ASP has two Contacts identified to receive invoices and creates a new Contact or modifies an existing Contact, wishing to indicate that Contact will receive invoices, the ASP must enter into one of the existing Contacts and indicate “No” for the field “Will this Contact Receive Invoices from IAAME”.

Changes to Contacts

ASPs are responsible for keeping the ASP’s contacts and Portal user account information up-to-date and accurate. This is done by making changes directly to the Contacts section of the Portal. Submitting a self-report in Activities is no longer required or available. When changes to a Contact are made within the Portal by the ASP, the Portal auto-generates a self-report on the ASP’s behalf and submits it to IAAME, noting the changes.

To edit an existing contact

IAAME Portal Manual for Adoption Service Providers

1. Select the magnifying glass icon next to the individual's name. This will open a new entry box titled "Contact Detail."
2. Change, delete, or enter information accordingly. The entry fields with red asterisks (*) identify fields which cannot be left blank. Please enter as much information as possible so IAAME has accurate information for contacting the ASP.
3. Select the attestation checkbox when it appears (it will appear if the change being initiated automatically generates a self-report).
4. To Disable a Portal Account for a contact, select "Disable Portal Account" at the bottom of the entry box.
5. Select "Apply Changes."
6. The Portal will auto-generate and submit a Change in Contact self-report on the ASP's behalf to IAAME any time an existing contact is modified or deactivated in the portal.
7. If a contact is deactivated, IAAME staff will contact the ASP to confirm if this deactivation resulted in a change in invoicing personnel.

To create a new contact

1. On the far-right hand side of the Contact section, select "Create Contact."
2. Enter applicable data. The entry fields with red asterisks (*) identify fields which cannot be left blank. Please enter as much information as possible so IAAME has accurate information for contacting the ASP.
3. To create a Portal Account for this new contact, click the checkbox titled "Create Portal Account." A pop-up box will appear as a reminder to verify the data. Select "OK." If the Contact should not have a Portal Account, leave this box un-checked.
4. Select the attestation checkbox accordingly.
5. Click "Create" to save the record. If a Portal Account is being created, the system will email initial portal login credentials to the new user. Please ensure the contact's email address is correct before saving.
6. The portal will auto-generate and submit a Change in Contact self-report on the ASP's behalf to IAAME any time an ASP creates a new contact in the portal.

Activities

The Activities tab is where various accreditation/approval and M&O activities are completed by ASPs. Activities may be generated by the ASP (i.e., self-reports), or by IAAME (i.e., Application Part A and B, SARC, Annual Attestation, etc.). Activities with the status of Pending, Submitted, Return to ASP, and Processed are contained in this section and may be sorted by selecting the column heading.

IAAME Portal Manual for Adoption Service Providers

Review and save or print a help document listing all self-report deadlines by selecting “Self-Report Deadlines” located at the upper right-hand corner of the Activities tab.

Submitting a Self-Report

***Please see the appendix of this Portal Manual which includes the Supporting Documents Required for Self-Reports. Also see the final page of this Portal Manual for a self-report requirements quick reference guide.**

1. Click “Create Self-Report” to create a new Self-Report.
2. A description may be entered by the ASP into the self-report for ease of identification, however, is not required.
3. Enter additional context for IAAME, if necessary, regarding the report in the “ASP Notes” section of the report. Evidence must be submitted in the Checklist section only *(be sure to click “save” before submitting the report if notes are entered)*.
4. Choose the Self-Report Type from the drop-down box.
5. Upload all required evidence in the appropriate “Upload” section of the report.
 - a. Click “Upload New Document” then choose the document to upload.
 - b. Select “Save Upload.”
 - c. Select “Done.”
6. ASPs may also “link” evidence to the self-report that has previously been uploaded to the Portal.
7. Ensure all required evidence is uploaded.
8. Select “yes” or “no” to attest the information in the self-report is accurate.
9. Click “Submit to IAAME.”

Once submitted to IAAME, the self-report will appear in “Pending IAAME” status. When IAAME has processed the self-report, the status will change to “IAAME Processed.” If IAAME returns the self-report to the ASP to address a question or missing information, IAAME will email the ASP and the self-report’s status will be changed to “Returned to ASP.”

Submitting Application Part A - Renewal

IAAME staff will create the Application Part A activity in the ASP’s Portal account:

1. Within the “Activities” tab in the Portal, click the pencil icon: “Application Part A” activity.
2. Under the “Checklist” section of the activity, enter the required evidence.
3. Upload all required evidence in the appropriate “Upload” section of the activity:
 - a. Click “Upload New Document” then choose the document to upload.
 - b. Select “Save Upload.”
 - c. Select “Done.”

IAAME Portal Manual for Adoption Service Providers

4. ASPs may also “Link” evidence to the self-report that has already been uploaded within the Portal.
5. Ensure all applicable evidence has been uploaded.
6. Select “Submit to IAAME.”

Submitting Application Part B

IAAME would recommend that ASPs utilize Google Chrome or Microsoft Edge to experience optimal functionality of the Portal.

IAAME staff will create the Application Part B activity in the ASP’s Portal account:

1. Within the “Activities” tab in Portal, click the pencil icon: “Application Part B”.
2. Under the “Checklist” section of the Activity there will be a drop-down labeled: “Standards Category.”
 - a. Click on the drop down to see the full list of categories of standards.
 - b. Select the category to be completed.
 - c. All categories must be completed prior to submission to IAAME.
3. Sub-standards are listed with the total number of required evidence for that sub-standard and the ASP’s progress in uploading/linking evidence is listed next to the sub-standard (e.g., 0/2). The sub-standard will appear in blue (in Chrome or Edge only).
4. Click on the sub-standard to which evidence should be uploaded/linked.
 - a. Once in the “Supporting Documentation for Checklist Item” window, the Category, Standard, Sub-standard, and Elements are identified.
 - i. If permitted to identify sub-standards as not applicable (Category 8 for ASPs which do not provide incoming adoption services; Category 9 for ASPs which do not provide outgoing adoption services), a drop-down menu is available to identify the sub-standard as not applicable. **DO NOT** upload evidence for Standards the ASP has deemed not applicable.
 - b. Click the “Upload/Link/View” hyperlink next to the required evidence listed.
 - c. In the “Upload/Link Supporting Document(s)” window, upload documents directly from a computer or link documents already uploaded from the “Documents Not Linked” section.
 - i. If a document has already been uploaded to the Portal and linked to another sub-standard, it may be chosen from the “Documents Not Linked” section by selecting the “Link” button beside the document and it will show as being linked to that sub-standard evidence requirement.
 - ii. If a document has not already been uploaded to the Portal, choose “Upload New Document,” then choose the file from the computer desired to upload. Once the document is selected, click “Save Upload.” This document will then be linked to that sub-standard as evidence.

IAAME Portal Manual for Adoption Service Providers

- d. When finished, click “Done” to exit the “Upload/Link Supporting Document(s)” window for that sub-standard.
 - e. Once all evidence has been uploaded or linked, select “Done” to exit the “Supporting Documentation for Checklist Item” window.
 - i. Notice the number to the right of the sub-standard on the “Checklist” will change depending on the amount of evidence uploaded/linked (e.g., change from “0/2” to “2/2”). Once all evidence for that sub-standard has been uploaded/linked, the number will turn green (when utilizing Chrome or Edge only).
 - f. At the top of each Category, you will see a Category Progress bar which identifies the ratio of uploaded evidence to required evidence. Once all required evidence for the selected Category has been uploaded, the numbers will match, and the bar will be completely green (when utilizing Chrome or Edge only).
5. When all required evidence has been uploaded/linked to the corresponding sub-standards, click “Submit to IAAME.” Once submitted, no changes can be made to the activity by the ASP.

Other important functions:

- The “Activity Progress” bar at the top will show progress for the entire activity.
- Regularly click “Save” in each section and before closing the activity out to return later.
- For those sub-standards where a “Not Applicable” option is available, if an “N/A” is indicated in the sub-standard, the number next to the sub-standard on the “Checklist” will be green (when utilizing Chrome or Edge) and indicate “0/0.”

Client Applications

The Client Applications tab is where the ASP will generate new Client Applications and additional adoptions, as well as edit existing client applications, including original and additional adoptions.

ASPs have two options:

- 1.) Enter each new client application individually by clicking “create client application”; or
- 2.) Upload an excel file (CSV format) with multiple new client applications.

Option 1: Create Client Application

In the Client Applications tab:

1. Click “Create Client Application” and the “Client Application Detail” window will appear.
2. Enter all required information in the Client Application Detail section.

IAAME Portal Manual for Adoption Service Providers

- In the field titled “Country Adopting From,” the available countries are auto generated as the countries in which the ASP has identified providing intercountry adoption services as a Primary Provider. If the applicable country does not appear, a self-report for Initiation by the Agency or Person of Services as a Primary Provider in a Foreign Country should be submitted to IAAME for the specific country.
 - If there is no country identified at the time of application acceptance, please choose “UNDECIDED” from the drop-down list (*this field must be edited in the Client Application Detail once determined - See Editing Client Application section below*).
3. Once all information is entered, click “Save.”

Option 2: Import from File

In the Client Applications tab:

1. Click “Import from File” to import an excel document in CSV format for quick upload of several applications at once.
 - When creating the excel spreadsheet, ensure the column headings match the instructions listed in the “Import Client Applications from File” section; otherwise an error message will be received when attempting to upload the file.
 - To use the prefilled CSV file template: click the “Download” link to download a sample CSV file and use to save and import information into the Portal.
 - Ensure the file is saved in CSV format, otherwise an error message will be received when attempting to upload the file.
2. Click “Choose File” and choose the saved CSV file to import, then click “Continue.” The system will ask to verify the import results. Imported information in any of the fields may be edited
3. Once all information is complete and accurate, click “Finish Import.” These applications will then appear in the Client Applications section of the site

Editing Original Adoption within Client Application

Once a client application has been created:

1. Click the pencil icon next to the client application to edit
2. Under the “Adoptions” section, click the pencil icon next to “original application” to enter fields related to the child to be adopted
 - a. Enter applicable fields in the Adoption Detail section
 - b. Click the question mark icon(?) next to each field for explanations and helpful tips when completing various fields

IAAME Portal Manual for Adoption Service Providers

- c. *Several fields may be identified as “Not Applicable.” If selecting the “Not Applicable” option, the reason the identified field is not applicable must be stated*
3. Click “Apply Changes”

Creating Additional Adoptions within Client Application

To add additional children to the original application (completed when multiple child referrals are accepted by PAPs):

1. Click “Create Adoption”
2. A new Adoption Detail window will open, and a prompt will appear to enter information about the additional child to be adopted.
3. An option is available to “Autofill from Original Adoption” using the tab at the top of the Additional Adoption. When clicked, all fields will copy from the Follow-Up section of the “Original Adoption” except the Child’s Birth Name, the Child’s Date of Birth, and the Child’s Gender. The asterisked fields in the Adoption Detail section must be completed before saving or submitting the Additional Adoption. Any fields in the Follow-Up section that differ from the “Original Adoption” must be changed prior to submitting or saving
4. Click “Apply Changes”

Closing a Client Application or Adoption within an Application

ASPs can move a client application and/or adoption within a client application to “closed” status within the Portal. To move an adoption or application to “closed” status, the ASP must complete the following steps for each adoption within a client application:

1. The Child’s Birth Name must be entered and may not be “TBD.”
2. Child’s Country of Origin must be indicated and may not be “Undecided.”
3. All fields in the “Follow Up” section for the applicable adoption must have data entered.
4. Once “Finalized In” field is completed, a “Close Adoption” button will appear on the right side of the screen.
5. Click “Close Adoption” (*Clicking this button will make the adoption read-only in the Portal and will no longer be able to be edited by the ASP*).

The above steps 1-5 must be completed for each adoption within the client application for the client application to move to “Closed” status.

Definitions of Data to be Entered in Client Application Detail and Adoption Follow-Up Detail

Referral Date: Date the referral of the child was accepted by the prospective adoptive parent(s) (PAPs). (*If there was no formal referral, indicate the date the client application was accepted by the ASP as the referral date*)

IAAME Portal Manual for Adoption Service Providers

Child's Birth Name: Birth name of the child

Child's Date of Birth: Birth date for the child

Child's Country of Origin: Country from which the child will emigrate

Sibling: Is the child a sibling to another child to be adopted

PAP(s) Acting on own Behalf: See 22 CFR 96.13 for definition

Home Study Approved: Date original home study was approved

Dossier Date: Date dossier was mailed/sent to the foreign Central Authority

Referral Given: Date the referral was given/offered to the PAP(s)

Name of Orphanage/FCO: Orphanage or Foster Care Organization

Relative Adoption: Is the child a relative of the PAP(s)

Adopting Unrelated Children: Are the PAP(s) adopting unrelated children

Out of Birth Order Placement: Does the adoption create a change in birth order within the PAP(s)' family

Foreign Custody: Date the PAP(s) assumed legal custody of the child in the foreign country

Finalized In: Where the adoption was finalized (United States or Foreign Country)

Date Finalized: Date adoption finalized

Viewing/Downloading All Client Applications

To view and download submitted client application data into various file formats:

1. Click on the "Client Applications" tab.
 2. In the top right corner, click "Applications/Adoptions on Monthly Reports."
 3. Click "Actions" next to the search bar and click "download" from the drop-down options.
 4. Choose the report format to download:
 - a. CSV (excel)
 - b. HTML
 - c. PDF
2. The document will download to the computer in the format identified.

Transferring a Client Application

ASPs can formally transfer a client application to another ASP within the Portal without the assistance of IAAME. For a client application to be transferred, it must have first been submitted as part of a Monthly Report to IAAME by the transferring ASP.

Transferring ASP Instructions:

1. Open the client application to transfer and in the Client Application Detail section, locate the "Transfer this Application" button. Click this button.

IAAME Portal Manual for Adoption Service Providers

2. A Transfer Detail box will pop up, and the ASP will be prompted to choose the ASP the client application will be transferred to from a drop-down listing of ASPs in. Then choose the “Transfer Reason” from the drop-down options and click “Submit Transfer Request.”

Accepting ASP Instructions:

1. On the Home page of both the sending and receiving ASPs’ Portal accounts, there is a section titled “Client Application Transfer Requests”. Click the pencil icon next to the pending transfer case and choose “accept” or “reject” the transfer.
 - a. If accepted, the client application will formally move from the transferring ASP’s client applications listing to the accepting ASP’s listing.
 - b. If rejected, the client application will show as status “rejected” to the transferring ASP and the transfer will not proceed.

**All initiated transfers will remain on both the transferring and accepting ASPs’ Home page for 30 days after accepting or rejecting. After 30 days the processed transfer will be archived.*

Deleting and Withdrawing Client Applications

ASPs may delete client applications that have been created in the Portal prior to submitting the client application as part of a Monthly Report:

1. Click the pencil icon next to the client application to edit.
2. Select “Delete This Application” on the right side of the client application.
3. Confirm deletion of the client application.

Once a client application has been submitted as part of a Monthly Report, the application may not be deleted. There are, however, various circumstances where a client application may be withdrawn from the ASP’s Portal:

- The Client Application was entered by the ASP in error.
- The PAP(s) have decided to end services with the current ASP with no immediate plan to transfer to another ASP for adoption services.
- The ASP has determined it is no longer able or willing to continue to provide services to PAP(s) (following the submission of Client Application in the Portal, but prior to completion of the adoption), and the PAPs are NOT being “transferred” to another ASP for adoption services (see transfer process outlined above).

Withdrawal of client applications may only occur via a Feedback request submitted to IAAME in the Portal. Prior to submitting such a request, the ASP must do the following:

1. Click the pencil icon next to the client application to edit.

IAAME Portal Manual for Adoption Service Providers

2. Ensure all applicable adoption milestones have been entered (i.e. home study approval, dossier date, etc.).

**For further details and instructions on submitting a Feedback request in the Portal, see page 1.*

M&O Follow-Up

ASPs are required to enter certain client and adoption-specific data into the IAAME portal. This data corresponds to demographic information and milestones within each intercountry adoption. It is recommended ASPs enter information as the case progresses and the specified milestones occur. The required information is to be entered for each child to be adopted. If a client application has more than one associated child to be adopted, data will be entered for each child.

The data will be used to:

Augment data ASPs are required to report annually to the Accrediting Entity per 22 CFR Subpart F 96.43(a):

- Collect, analyze, and report data on intercountry adoptions; and
- Respond to the Department of State's request for IAAME to collect additional pertinent data related to intercountry adoptions.

ASPs may update this information in the Portal in one of two ways:

1. M&O Needing Follow Up table:

- Upon clicking the M & O Follow-Up tab a listing of the ASP's client applications will appear in the section titled: M&O Needing Follow Up. This list includes the application identification number, application acceptance date, name of parent 1, name of parent 2, city, state, country, and number of children being adopted.
- To enter the information, click on the pencil at the beginning of each row. Once the pencil is clicked a list will appear that includes all the required data elements. Enter the information directly into this form by double clicking on the specific data entry box where information needs entered. Enter the "Date Closed", as the date all required fields have been entered. This will close the adoption within the application.
- Click the "Done" button located on the right-hand side of the page.
- Information should be entered as the various milestones in a case occur, wherever possible.
- Once all required fields are entered, including "Date Closed" for each adoption within the application, the client application will no longer appear on the M & O

IAAME Portal Manual for Adoption Service Providers

Follow-Up Tab. Only those client applications that have data remaining to be entered (“active” status) will appear in this tab.

2. **Export/Import of Adoption Detail and Follow Up Data**

**One ASP Contact may be assigned to this feature in the Portal at a time for each ASP. Requests for new access and change in access must be made through the Portal Feedback mechanism.*

1. Within the M&O Follow Up tab, click “Export/Import Adoptions Needing Follow Up” in the right-side top corner.
2. Follow the instructions within the Export/Import Adoptions Needing Follow Up page.

Monthly Reports

By the 5th of each month, each ASP will create a monthly report of all client applications and additional applications (adoptions) submitted for the prior month (*e.g., By May 5th, the ASP will submit a monthly report that includes all new client applications reported for the month of April*). If the ASP has not entered all applicable client applications and additional adoptions, this must be done prior to creating the monthly report. If the Monthly Report is created prior to all applicable client applications and additional adoptions being entered, the Monthly Report must be deleted and the ASP must enter all client applications and additional adoptions, recreate the Monthly Report, and submit to IAAME.

Submitting a Monthly Report:

1. On the Monthly Reports tab in the Portal, click “Create Monthly Report.” All client applications and additional applications reported in the Portal from the previous month autofill into a generated Monthly Report.
2. If the ASP has reported NO new client applications or additional applications in the previous month, check “No billable activities this month” checkbox before submitting the Monthly Report.
3. Add notes to the “ASP Notes” section if there is additional information about the monthly report that IAAME should be aware of when reviewing (select “Save” to save the note before submitting the monthly report).
4. Once all information is verified as accurate and accounted for in the Monthly Report, select “Submit Monthly Report.”

** Once the Monthly Report has been submitted in the Portal, it can no longer be edited by the ASP.*

** Please do not upload Monthly Reports in the Documents tab in the portal.*

** If experiencing issues submitting a monthly report:*

IAAME Portal Manual for Adoption Service Providers

- *Delete the Monthly Report and attempt to generate a new report.*
- *If the issues continue, submit a Feedback request to IAAME.*

Fees

The Fees tab displays the fees charged by the ASP as outlined in 22 CFR 96.40(b)-(c), including in countries where the ASP is identified as acting as a primary provider.

When an ASP submits a self-report for Initiation by the Agency or Person of Services as a Primary Provider in a Foreign Country, the country will automatically populate to the ASP Info tab and the ASP's Fees tab. The ASP will then enter the fees for the newly added country into the Fees section.

The Fees tab also captures fees charged by ASPs who do not act as a Primary Provider. These fees are not connected to a particular country, as Non-Primary Providers would have no active countries listed in the Portal.

Reporting Fee Changes (editing existing fees)

1. Once in the Fees tab, click the pencil icon to edit the fees for the specific country or if the ASP is not a primary provider, edit the "Non-Primary Provider" fees
2. Click on the pencil icon next to the Fee Type to edit
3. Edit all applicable fee ranges
4. Select "Save"
5. Once all fees have been entered, select "Done Editing 'Country Name' - Return to Fees Listing"
6. Click "Submit Changes to IAAME", then check the box attesting that the information being submitted is accurate.
7. A self-report is automatically submitted to IAAME on the ASP's behalf for "Change in the Agency or Person's Fees Charged to Prospective Adoptive Parents". The ASP is not required to submit a separate self-report for this change.

Entering Fee Information for a New Country (following the submission of a self-report initiating a new country)

1. Once in the Fees tab, click the pencil icon to enter the Fees for the newly reported country.
2. Click on the pencil icon next to each Fee Type to Edit
3. Enter fee begin and end range for each Fee Type (of a Fee is not applicable, indicate not applicable in the Fee Detail and enter a Reason in the text box), click "save".
4. Once all fees have been entered, click "Done Editing 'Country Name' - Return to Fees Listing"

IAAME Portal Manual for Adoption Service Providers

5. Click “Complete Initial Fees Entry”.

Complaints

The Complaint tab in the Portal will include all complaints filed against the ASP which have been accepted for review by IAAME. The complaint process in the Portal will include the steps outlined below. For further information regarding IAAME’s complaint procedures, please refer to IAAME’s Policy and Procedure 005 available on IAAME’s website.

1. Once IAAME has accepted a complaint for review, IAAME will enter the complaint into the ASP’s Portal Complaints and notify the ASP via email. The notification will include instructions for the ASP to respond to the complaint
2. The ASP will locate the identified complaint in the Complaints tab in the Portal
3. The ASP must click “Acknowledge Complaint Review” within the Complaint Detail to verify receipt of the complaint
4. The Complaint Detail section includes various milestones that will occur within a complaint review, including the outcome. It also includes the details of the complaint
5. The Allegations/Standards/Documentation section, includes the identified complaint allegations and any applicable Standards identified from 22 CFR 96 Subpart F
6. Under the heading “ASP Required Documentation,” the ASP will find the specific evidence being requested by IAAME
7. **To upload evidence:**
 - a. Click on the evidence name, which is in blue font
 - b. Choose File from the ASP’s computer
 - c. Once the document is selected, click “Upload”
8. Once all requested evidence has been uploaded, select “Submit to IAAME”
9. This will change the Review Status to “Pending IAAME”
10. IAAME will complete its review of the complaint. If additional evidence is needed, IAAME will notify the ASP via email and return the Complaint Review to the ASP in the Portal to upload additional evidence (step 7 above)
11. Once IAAME has completed its review, IAAME will notify the ASP via email and upload the Final Report on findings to the complaint in the Portal.
12. If the complaint results in adverse action, IAAME will also upload the Notice of Deficiencies

Documents

To upload a document into the ASP’s IAAME Portal account, click the Documents tab. This section may be utilized for submission of evidence in response to a formal request by IAAME, a

corrective action plan response, etc. but generally documents should be uploaded within the applicable Activity.

1. Click “Upload Files”.
2. A box will appear on the screen that says, “Drop files here or click to upload.” Click inside the box.
3. Select the file(s) to upload (*hint: it is best to name the document so able to identify it easily in this section later, e.g., “Annual Attestation 2018”*)
 - a. If having difficulties uploading, it may be beneficial to refer to the “PDF File Size Help” tab located under the Upload Files box. Each file must be less than 30mb.
 - b. Up to 10 files may be uploaded at a time
4. A logo will appear in the box once finished uploading
5. A drop-down menu will appear on the screen under “Document Type”
6. Select the Document Type from the list of available options
7. Click “Save uploaded files”
8. The ASP must request IAAME delete documents uploaded in error by the ASP from the Documents page, using the Feedback mechanism. Documents links to an Activity in the Portal cannot be deleted.

**Documents can be sorted by selecting the column heading*

Reports

The Reports tab includes reports that are downloadable and exportable by ASPs within the portal. Currently, the Reports tab includes one report options for ASPs titled, “Case Tracking and Reporting”. This report may be utilized by ASPs to meet the reporting requirements set forth in 96.43(b)(1)(2) and (5).

To download a report of data available via this page, click the “Actions” drop down arrow, and select “download”. Select the file type you’d like to download the data to. If you wish to export the report to an excel file, choose “CSV file”.

Resources

The Resources tab is utilized by IAAME to post various resources for ASPs. IAAME will post recorded trainings and presentations, important help documents and tools, as well as other important items for easy access by ASPs. Many of these resources will also be available via the IAAME website. The intention of creating a mechanism within the Portal to maintain resources for ASPs is for ease in accessing information by consolidating all resources into one location, accessible by accredited or approved ASPs.
